PROJECTS

GYM Management System
Personal Project

- Technologies Used: PHP, Java Script, MySQL, HTML, CSS
- Developed a comprehensive gym management system with modules for member registration, class scheduling, and BMI tracking.
- Created a user-friendly interface using HTML, CSS, and JavaScript, ensuring smooth navigation and efficient data entry.
- Designed and managed a MySQL database to securely store member information, schedules, and workout details.

Library Management System
Personal Project
- Technologies Used: Java, Java Swing, MySQL
- Developed a library management system to handle book cataloging, member management, and borrowing records.
- Implemented a user-friendly interface using Java Swing, ensuring intuitive navigation and efficient data entry.
- Integrated MySQL for storing and managing book information, member details, and borrowing records.

Chat Application
Personal Project
- Technologies Used: Java
- A console-based chatbot application that interacts with users through text-based input and provides responses based on predefined logic

Personal Portfolio Website
- Technologies Used: HTML, CSS, JavaScript
- Developed a personal portfolio website to showcase projects and skills.
- Implemented responsive design principles to ensure compatibility across devices.

Extracurricular Activities

Member, Superlight Sports Club   **2022 - 2023**
- Served as an Exco member, contributing to club management and decision-making
- Actively participated in club meetings and activities
- Played a key role in organizing sports events and tournaments.
